

**AED Institute of America** offers a full service Public Access Defibrillation Program. Our program strategically places AEDs to facilitate rapid deployment and continuous monitoring of the program to ensure its effectiveness. In addition, AED Institute of America is a credited Training Center under the American Heart Association. We offer certification classes for all levels to ensure individuals are well trained and prepared to act in the event of an emergency.

## **AED READINESS & COMPLIANCE PROGRAM**

*Annual Contract: Price may vary depending on the type of AED covered under the program*

### **AED Program Coordination**

- Physician oversight; assistance with developing policies and procedures for your AED Program
- Existing AED Programs will be evaluated, offering software updates and recommendations
- Notification and assistance with AED recalls, manufacturer notices and required software upgrades
- 24/7 assistance available for AED downloads or AED emergency events

### **AED Inspections and Tracking Service**

- AED inspection conducted annually to include self test, pad/battery tracking and cabinet inspection
- Monitoring and maintenance of the AED to make certain that it is operational when needed
- AED serial numbers and accessories will be tracked through our database, includes tracking of AEDs purchased through third party vendors

### **AED Pad and Battery Service**

- Tracking service monitors expiration dates on pads and batteries
- Customer will receive new pads prior to expiration dates<sup>1</sup>
- Customer will receive replacement pads after AED emergency deployment or use
- Batteries are covered during four-year warranty period with a one for one exchange<sup>2</sup>

### **AED Education Program**

- We offer a 30 minute in service AED education session for new or existing AEDs under program
- AED Institute offers a variety of certification classes for all skill levels
- Follow-up offered by the Program Director after each emergency event to provide quality assurance, safety and support

*Customer is responsible for conducting monthly inspections and for notifying AED Institute of America of any AED related issues or emergency events that include the use of an AED.*

<sup>1</sup> Customer must be on program for at least one year, if customer does not renew program within 90 days then customer is responsible for cost of replacement pads

<sup>2</sup> Applies to Phillips FRx and Onsite units only
